KILLERTON,  
EXETER.

Dear Professor Gray  
your kind remi-  
nisance of your visit  
here (I wish not had  
been longer) is very  
gratifying  
But I had already  
received a copy  
of your Scientific  
Religion and you

America

The copy which  
has come to my  
hand I see subscribed  
the name of my  
brother. (though not  
exactly) his name  
is Henry Wentworth  
Arthur. I believe his  
family found traces

add Dyke.

I have been viewing  
perusing the book  
of Postors & Clergy  
& Laymen.

It appears to me  
for the most com-  
plete & well balanced  
Statement of the  
quantity & the re-  
ference to the two

Learn & Religion  
to my brother  
I wish papers  
on. If it does  
not go to some  
the duplicate copy  
shall be well  
circulated.

With much love  
I am your very true  
Believer

I wish to see  
that you are  
still in London,  
I wish to see  
on looking again  
at you like I  
my minister  
I wish to see  
my brother  
may I so see

Genl Mr Messrs  
on your kind resp  
as to add that ~~any~~  
the titles of any  
American publica  
tions on Agriculture  
Specially on the  
practical bearing  
of Scientific know  
ledge would be  
most welcome as  
a contribution to  
our West of England  
journal.

KILLERTON,  
EXETER.

I am desiring to  
go on hearing  
from you Botany
